Cosmic Nutri Products

Why our Jaggery powder?

Other Brands

- **Unhygienic** MS open-pan processing
- High flame heating (800 deg C) causes **caramelization** and **nutrient loss**
- Caramalization leads to poor **taste**
- **Chemicals, preservatives,** and **sugar adulteration**
- Inconsistent, **low-quality raw material**

- **Processed in stainless-steel, closed vessels**
- **Low-temperature steam (125 deg C) processing preserves taste & micronutrients**
- **No chemicals or preservatives used**
- **No added sugar – only pure jaggery**
- **Proudly made in Kolhapur, renowned worldwide for jaggery quality**
